

**Requirement of agitator along with motor, gear box and standard accessories for product repulping tank**

Tank details: Dia 2200 mm, Length 3000mm

Tag no: 8AG-2C,

Application: Product holding tank

Liquid handling: 25% SDU slurry

Operation: Continuous

Specific gravity: 1.39

Viscosity: 10 Cp

Temperature: 80 degree C

Ph: Alkali

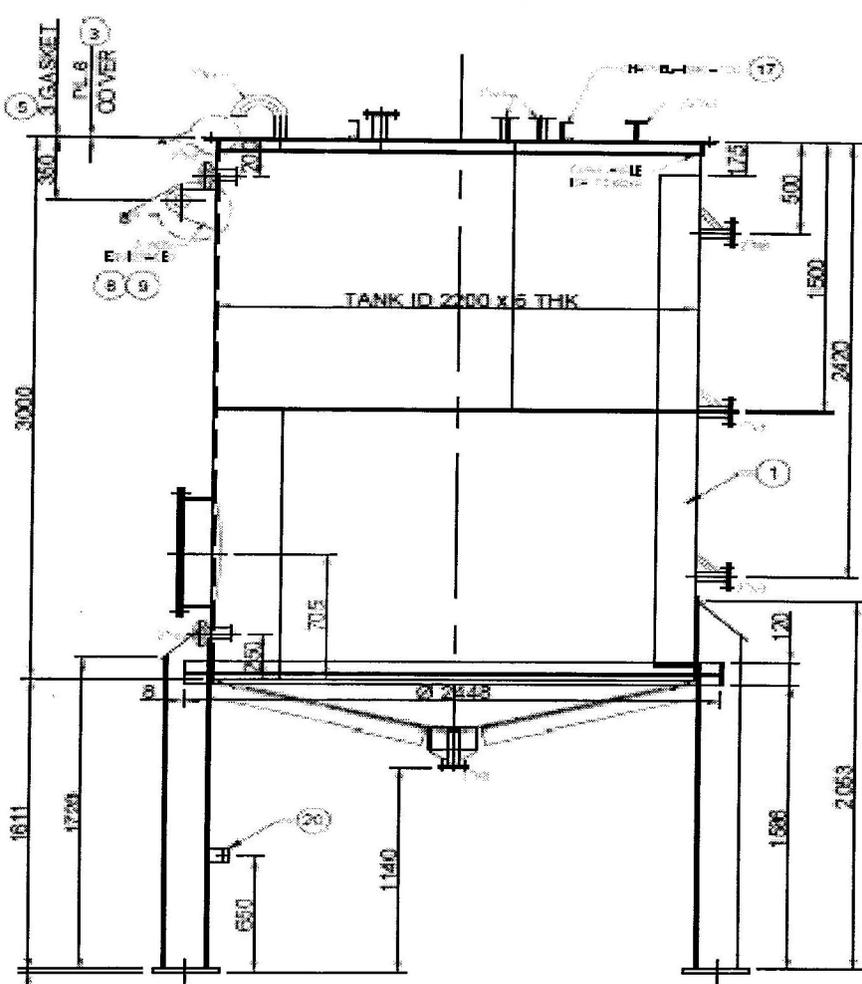

Solids: 25%

Type: Hydro foil

Baffels provided in tank: Yes

RPM: ~ 52

Agitator shaft and blades MOC: SS316

**ELEVATION  
PRODUCT HOLDING TANK**
